

# POOL & SPA AUTOMATION CATALOGUE

**ACCESSIBLE POOL AUTOMATION FOR EVERYONE.**

**Convenience:** Manage and control your pool settings in real time from anywhere in the world, 24/7, all year round.

**Peace of mind:** Monitor your pool at all times keeping a healthy and safe pool for you and your family.

**Sustainability:** Efficient management of water and energy.

### INTRODUCING CONNECT MY POOL

The Connect My Pool app, in conjunction with an AstralPool Connect unit, allows you to automate and control your entire swimming pool environment from your smartphone, tablet or computer.

Control and fully\* automate your swimming pool system, as well as, automatic cleaners, water features, garden lighting, sprinkler system, entertainment system and virtually your entire outdoor living environment from anywhere in the world.

- Connect your lifestyle with hassle free automation
- Integration of entire Pool and Spa environment
- One touch favourite mode
- Wireless expansion capabilities

*\*Available features depend on Connect controller model*

### INTRODUCING VIRTUAL POOL CARE

This is a "real time" 24/7 monitoring system that gives you peace of mind knowing your pool is being looked after remotely by your local pool shop professional without you having to lift a finger!

Live data is streamed directly from your linked pool system to your chosen pool shop professional allowing them to monitor it and even make adjustments to ensure it is clean, healthy and safe for the whole family to swim in.

Email notifications are sent to the pool shop to alert them if your pool system needs attention.

When paired with a Connect unit and Internet Gateway, you will get peace of mind knowing your pool is being monitored remotely, around the clock, by your local pool shop professional.

In addition, an automated swimming pool will make life more convenient and easier for you, as you will be able to have your entire swimming pool system monitored, and even adjusted, by a pool professional of your choice with Virtual Pool Care.

## CONNECT LITE

### ENTRY LEVEL AUTOMATION FOR ALL

Low cost integrated automation system with expandable internet gateway and smart phone operation from anywhere in the world

Enables colour selection and programming of up to 4 x SLX underwater LED lights

Integrates with Viron and eQ Chlorination systems

#### AUTOMATION

*Control lighting feature from indoor environment*

*Seamless control of lights*

AstralPool's Connect LITE is the easiest way to automate your swimming pool. It offers pool owners total control of up to four colour-changing LED lights. When integrated with a Viron Chlorinator, you can choose up to 4 timer periods to control your pool lights.

The Connect LITE can be further expanded to include internet connection for control by the ConnectMyPool app from anywhere in the world. Using the platform's mobile app, users can check that the different pool elements are working properly at all times and receive informative parameters and control data on chemical production levels.

## CONNECT LITE

### TOTAL LIGHTING CONTROL

The Connect Lite gives you the functionality to operate up to 4 x SLX Lights. It couldn't be easier to activate and deactivate lights, change colours or return lights to Sync position with an easy one-touch button.

### EASY CONTROL

The included convenient RF handheld remote allows for easy intuitive control.

### INTEGRATION WITH CHLORINATORS

When connected to AstralPool's Viron or EQ chlorinator, you can automate your lights at night using the chlorinators built in timers.

### CONNECT MY POOL APP

Since the Connect LITE is a fully expandable integrated pool automation system, it can be easily upgraded to include the AstralPool Internet Gateway, which enables full remote control through your smartphone with the ConnectMyPool app, and also access to the Virtual Pool Care system.

## CONNECT LITE+

### EASY ENTERTAINMENT CONTROL

Low cost, expandable integrated automation system, from a lighting controller to a full pool management system.

Built in programmable timers for your Pool and Spa equipment

Additional outlet ports for control of your equipment

### AUTOMATION

Control garden lighting, music system, water feature and much more

Additional ports to control your choice of pool equipment

Seamless control of lights

The AstralPool Connect LITE+ is an integrated pool automation system that offers pool owners total control of up to four colour-changing LED lights (in 2 different zones if required), timer periods for the filtration pump and full integration with a Viron chlorinator. Sitting in between the Connect LITE and Viron Connect, the Connect LITE+ also includes four programmable timers and 2x 240 V outlets to connect extra devices and give complete control of the pool.

The Connect LITE + can be further expanded to include internet connection for control by the ConnectMyPool app from anywhere in the world. Using the platform's mobile app, users can check that the different pool elements are working properly at all times and receive informative parameters and control data on chemical production levels.

## CONNECT LITE +

### TOTAL LIGHTING CONTROL

Functionality to operate up to 4 x SLX Lights. RF Remote Control to activate and deactivate lights, change colours or return lights to Sync position with an easy one-touch button.

### EASIER MANUAL CONTROL

The incorporated built in front LCD screen allows for easier manual control of settings.

### EXTEND YOUR CONTROL

The Connect LITE+ comes with two extra 240V 10AMP outlet ports, allowing the flexibility of controlling external equipment of your choice, such as a Cleaning pump, water feature pump, music system or garden lights, from either the RF Remote Control or the built in LCD screen.

### INTEGRATION WITH CHLORINATORS

When connected to a Viron or EQ chlorinator, you will be able to easily control your pool's chlorination with your remote.

### CONNECT MY POOL APP

Since the Connect LITE + is a fully expandable integrated pool automation system, it can be easily upgraded to include the AstralPool Internet Gateway, which enables full remote control through your smartphone with the ConnectMyPool app, and also access to the Virtual Pool Care system.

## VIRON CONNECT

### TOTAL POOL & SPA ENVIRONMENT MANAGEMENT

Connect your lifestyle with hassle free automation

Integration of entire Pool and Spa environment

One touch favourite mode

Wireless expansion capabilities

### AUTOMATION

The AstralPool Viron Connect Pool and Spa controller allows you to automate and control your entire swimming environment. Integrate all of your Pool and Spa equipment and operate everything with the touch of a button via the multi-function user friendly touchscreen.

## VIRON CONNECT

### CONNECT YOUR LIFESTYLE

The AstralPool Viron Connect provides the pool owner the option to control all pool equipment, valves, heaters and chlorinators from anywhere inside the home or by mobile device when on the move.

### ONE TOUCH FAVOURITE MODE

One touch "favourite" menus allow a single touch of a button to turn on your favourite spa pool setting, party settings or water feature and pool lights for a relaxing poolside BBQ.

### SMART ASTRALPOOL INTEGRATION

The Viron Connect intelligently controls energy efficient pump speeds, water temperature and pool sanitisers when connected to AstralPool filtration and heating equipment and is highly flexible in the way in can be installed, connected and tailored to suit your lifestyle.

### CONNECT MY POOL APP

Since the Viron Connect is a fully expandable integrated pool automation system, it can be easily upgraded to include the AstralPool Internet Gateway, which enables full remote control through your smartphone with the ConnectMyPool app, and also access to the Virtual Pool Care system.

## CONNECT YOUR WAY

### OPTIONAL EXPANSION MODULES

The AstralPool Connect units are simple to expand. Want to set up your touch screen in a more convenient location? Add on the wireless transceivers. Need an additional remote for the spa? The remote control transceiver has you covered. And don't forget the must have Internet Gateway module that will enable access to the Virtual Pool Care monitoring system and the Connect My Pool smartphone app for control of your pool from anywhere in the world!

### WIRELESS MODULE

The touch screen can be installed inside the home in a convenient location that allow easy access for the entire family. This wireless touch screen option eliminates the need for difficult to install cable between the house and the pool equipment.

### RF REMOTE MODULE

Unlock your Connect unit to be able to turn up to 8 different appliances on and off, including heaters, speed control for variable or 3 speed pumps and 5 other appliances. Being a two way transceiver, this smart remote uses a LED flash to let you know the signal has been received and activated by the equipment. This waterproof remote is ideal for controlling spa blowers, jets, lights and heating when using your Pool and Spa.

### INTERNET GATEWAY MODULE

Release the full potential of your Connect unit and allow yourself to experience the limitless freedom of controlling your Pool and Spa from anywhere in the home or on the move. The Internet Gateway allows an ethernet connection or WiFi connection from your Connect unit to your home router. Once connected, download and use the Connect My Pool APP to your mobile device and start controlling your Pool and Spa from anywhere! You can also access the Virtual Pool Care monitoring system with any Virtual Pool Care certified pool professional.

*\*Home router and Smartphone/Tablet are not included.*
