

# MAX 1+ ROBOTIC CLEANER

## MAX 1+ Robotic Cleaner

- ✓ Light weight design and top access cartridges with clear viewing lid
- ✓ Saves water, by reducing backwashing needs
- ✓ Grooved PVA wheels to suit all pool interiors

# MAX 1+ Robotic Cleaner

Robot Pool Cleaners make perfect sense in today's energy efficient world. The MAX 1+ pool cleaner is the latest revolution in cleaning technology. The top access self contained inbuilt filters collect large debris and reduces the load on your conventional filter, decreasing backwash frequency and saving expensive chemicals and water top up. Energy costs for your cleaning system are reduced to as little as \$10.00 per year.

Designed by one of Europe's best design houses, The MAX 1+ looks smart and is easy to use. The easy to remove filter cartridges are simple to clean, and enable easy viewing of the collected debris, even during operation.

When not in use, it's simple to remove and stow the MAX 1+ so that your pool is ready to use at any time without swimming around cumbersome pool cleaner hoses. The MAX 1+ is so efficient at cleaning it will only need to be operated once or twice a week in most swimming pools.

The MAX 1+ cleaner will allow you to optimise the use of your variable speed energy efficient pump because it operates totally independently of the filtration system. This allows your energy efficient pump to operate at the lowest speed without having to drive a suction cleaner which increases energy use.

The MAX 1+ cleaner is the latest development in robot jet cleaners and provides an economical option for the budget conscious pool owner. The MAX 1+ has a single motor that creates waterflow with jets that manoeuvre the unit around the pool. It offers a great alternative to Suction or Hybrid cleaners which require a connection to the pool pump and use significantly more energy and wastes more water.

A simple lever on the front of the unit enables adjustment of the cleaner direction so that it works in virtually any shape pool up to 12 metres in length. Simple to install and able to be set-up perfectly for your pool, the MAX 1+ gives you all the benefits of Robotic Cleaners at an economical price.

The MAX 1+ Robotic Cleaner is covered by a two year warranty. To find out more visit [astralpool.com.au](http://astralpool.com.au).

## EASY INSTALLATION

Simple instructions then plug and play

## LIGHT

Light weight with large drain outlets that enable fast discharge of water means the MAX+ is easy to take out of the pool

## MAX 1+ SWEEPER

Sweeper brush helps agitate debris for easy removal

## EASY-VIEW

Transparent windows for seeing the level of dirt in the filter even when it is working

## EASY CLEAN

With a filter that enables quick and easy cleaning without coming into contact with the dirt

## EASY OPEN

Direct access to the filter by just lifting the handle. No need to open the covers, turn the cleaner upside down or press any buttons
