Which pool do you have?

**New Pools:** Add acquatherepé TRANSFORM + Pure Care Natural Pool  
**Existing Mineral Pools:** Top up with acquatherepé + Pure Care Natural Pool

# acquatherepé

## mineral wellbeing

Transform your pool into a luxurious mineral bath. Specially blended minerals are designed to soften your pool and spa water, for a swimming or bathing experience like no other. Swimmers can absorb up to 500ml of water in an hour of pool use so the unique blend of acquatherepé can provide health benefits for the skin, hair, eyes and nervous system.

acquatherepé is easily dissolved into the pool water and its ingredients help prevent staining and assist in preventing calcium and scale build up in the salt chlorinator cell, heaters, pool interior and other equipment

- Mineral wellbeing for your pool and spa
- Softens water for a silky smooth swimming experience
- Inhibits scale, staining and calcium build up
- Luxuriate in a mineral spa in your own backyard

Instructions: Simply add 40kg of acquatherepé per 10,000 litres of pool or spa water after pool has been filled. Suitable for all salt chlorinators with a recommended salt level of 4,000 ppm. When replacing conventional pool salt, ensure salt level does not exceed 4,000 ppm after the addition of acquatherepé. While filter pump is operating, add acquatherepé to the deep end of the pool and gently agitate with a pool brush to dissolve. Adjust pH level after addition to between 7.4 and 7.6.

Australian Patent Registration No.2012216274

# natural pool & spa

## natural mineral therapy

High in Magnesium and Potassium, results in clear, soft and silky smooth water. Perfect for your hair and skin.
