

RBX ROBOTIC CLEANER

RBX Robotic Cleaner

- ✓ Premium Aquasmart Mapping Software
- ✓ Latest Gyroscope Technology
- ✓ Uses 80% less power than suction or pressure cleaners
- ✓ Reduces water and chemical loss
- ✓ Silent Operation
- ✓ Filters down to 2 microns
- ✓ Cleans floors and walls of average pool in 1½ hours
- ✓ Programmable power supply with three cleaning options
- ✓ Filter bag full warning
- ✓ Delay run feature
- ✓ Convenient Caddy for mobility and storage

RBX Robotic Cleaner

Environmentally friendly, the Astralpool RBX Robotic Cleaner cleans and scrubs almost any size and shape residential pool. Utilising the latest pool mapping and positioning technology (Gyro) and combined with the unique aquasmart software, the Astralpool RBX robot cleans the average size swimming pool in as little as 1.5 hours and costs as little as 8 cents to run. With a fully programmable power supply you can select the cleaning cycle best needed, set the delay function to allow the unit to come on only when cleaning is required and with a built in sensor the unit can even tell you when the bag needs emptying. Supplied with a Caddy to allow for easy movement and storage the RBX Robotic Cleaner covers all bases.

Cleaning wall and floor, the in-built filtration bag captures fine debris down to 2 microns and helps reduce the load on your filtration system. This in turn reduces the need for constant backwashing saving you both time and money, not to mention the benefits of helping reducing water waste.

The RBX Robotic Cleaner also helps circulate pool chemicals consistently around the pool ensuring the available chemicals are utilised most effectively and can also help circulate heated pool water throughout the entire pool making the heating of your pool more efficient.

Robotic pool cleaners offer most benefit when operated at night after the days swimming and filtration activity has ceased. Simply drop the cleaner in before you go to bed

and the cleaner will run its cycle, turn itself off and await the next cleaning cycle.

The RBX Robotic Cleaner has a delay start function allowing you to pre determine when the unit operates. It can also be attached to an external timer if required.

The RBX Robotic cleaner is best suited to pools with a width of 3.5 meters and wider and a maximum length of 12 metres. For pools narrower than this the AstralPool RPX Robotic cleaner is recommended.

The Astralpool RBX Robotic cleaner is just one of six new Robotic cleaners available, one of which will most definitely suit your swimming pool.

Model	Cycle Time	Wall Cleaner	Recommended Pool Size	Min. pool width at floor	Cable Length	Filter bag porosity	Suction Rate	Motor Unit Voltage	Power Supply Rating
RBX	1.5hr, 2 and 2.5hr	Yes	80m ²	3.5m	18m	Down to 2 micron	16m ³ /hr	24 VDC	IP54

Warranty

The RBX Residential pool cleaner is covered by a 3 year warranty
