# SKIMMER CONCRETE & FIBREGLASS

Swimming Pools may have various parts, but the skimmer is undoubtedly one of the most important parts that keeps everything working. AstralPool's skimmer has one of the largest leaf baskets available, reducing the frequency of cleaning. A choice of grey or white standard lip or extended lip simplify installation and helps blend the skimmer with the pool surrounds and landscaping. Standard bottom entry with provision for rear entry in every model skimmer.

## FEATURES:

- New more compact design with reduced weir length and Depth
- Reliable Single piece construction – No Glue joints that can leak
- Door sits below water line to eliminate noise
- Increased re-bar locations and wire tie points for additional security
- Deep bowl reduces chance of vortex and premature wear to pump
- Fully backwards compatible with all current skimmer accessories including deck lids, extension rings, Fibreglass kits and concrete dress ring
- Available in Standard and Extended lip (Extended lip is only available for fibreglass Swimming-Pools).
- Designed and manufactured in Australia from Australian compounded UV stabilised High impact ABS plastic
