

## Viron P280 Vari Speed Pump

*A product of today's thinking and global challenges*

- ✓ Reduce your electricity costs by up to \$580 per year
- ✓ Lower noise levels
- ✓ Reduced CO2 Emissions

The more stars the more energy efficient

### ENERGY RATING

A joint government and industry program  
AstralPool Viron P280, Model 11485 Vari Speed Pump

Efficiency L/Wh	Flow Rate L/min	Head m	Power W	Noise dBA
25.17	177.8	5.69	423.82	65.2

Energy consumption  
**725**  
kWh per year  
To pump 50,000 litres/day

When tested in accordance with AS 5102.2.  
Actual energy use and running costs will depend on how you use the appliance.

## Viron P280 Vari Speed Pump

Install a Viron P280 Vari Speed pool pump and relax with the knowledge that you will be reducing your electricity costs, helping the environment and providing your family with a crystal clean and healthy pool.

The Viron P280 pump utilises state of the art permanent magnet brushless 3 speed DC motor which has been developed to dramatically decrease your operating costs. Unlike conventional single speed motors, which work at maximum capacity at all time, the Viron P280 adapts to the task at hand reducing your electricity consumption and saving you money all year round.

The Viron P280 is also significantly quieter than conventional pool pumps. So quiet that it can be operated at times simply not feasible for other pumps. This means you can use your pump during off peak electricity times reducing your power bill even further.

With the Viron P280 installed you will have the advantage of reduced chlorinator size, increased sanitiser stability and reduced wear and tear on your filtration plus more efficient cleaning of your media filter all to help your pool equipment last longer and reduce the lifetime operating costs of your pool.

The environmental savings are equally impressive with the Viron P280 saving up to 1 tonne of CO<sub>2</sub> emissions each year when compared to a conventional pump. The Viron P280 pump is also a direct replacement for all AstralPool/Hurlcon CX, TX and CTX pumps.

The Viron P280 Pump is covered by a limited 3 year warranty against defects in materials and workmanship.

To calculate how much you could save on electricity cost visit [www.astralpool.com.au](http://www.astralpool.com.au)

Noise Level dBA at 1 Metre  
Viron P280 v Conventional Pool Pump

CO<sub>2</sub> Emissions  
Viron P280 v Conventional Pool Pump (Per Day)

The recommended operating speed for the P280 Pump is slow speed.
