

LIGHTS & WATER FEATURES

Infinite control from inside your home

The Viron Connect not only controls your pool equipment and automates your swimming pool but also coordinates your AstralPool underwater Lighting and Waterfalls.

Set your favourite one touch button for instant light control and waterfall control. Blend millions of colours, time clock your lighting for automatic on and off times each night and gain the most enjoyment from your lifestyle investment.

Warranty

12 months warranty against defects in materials and assembly of the light and waterfall.

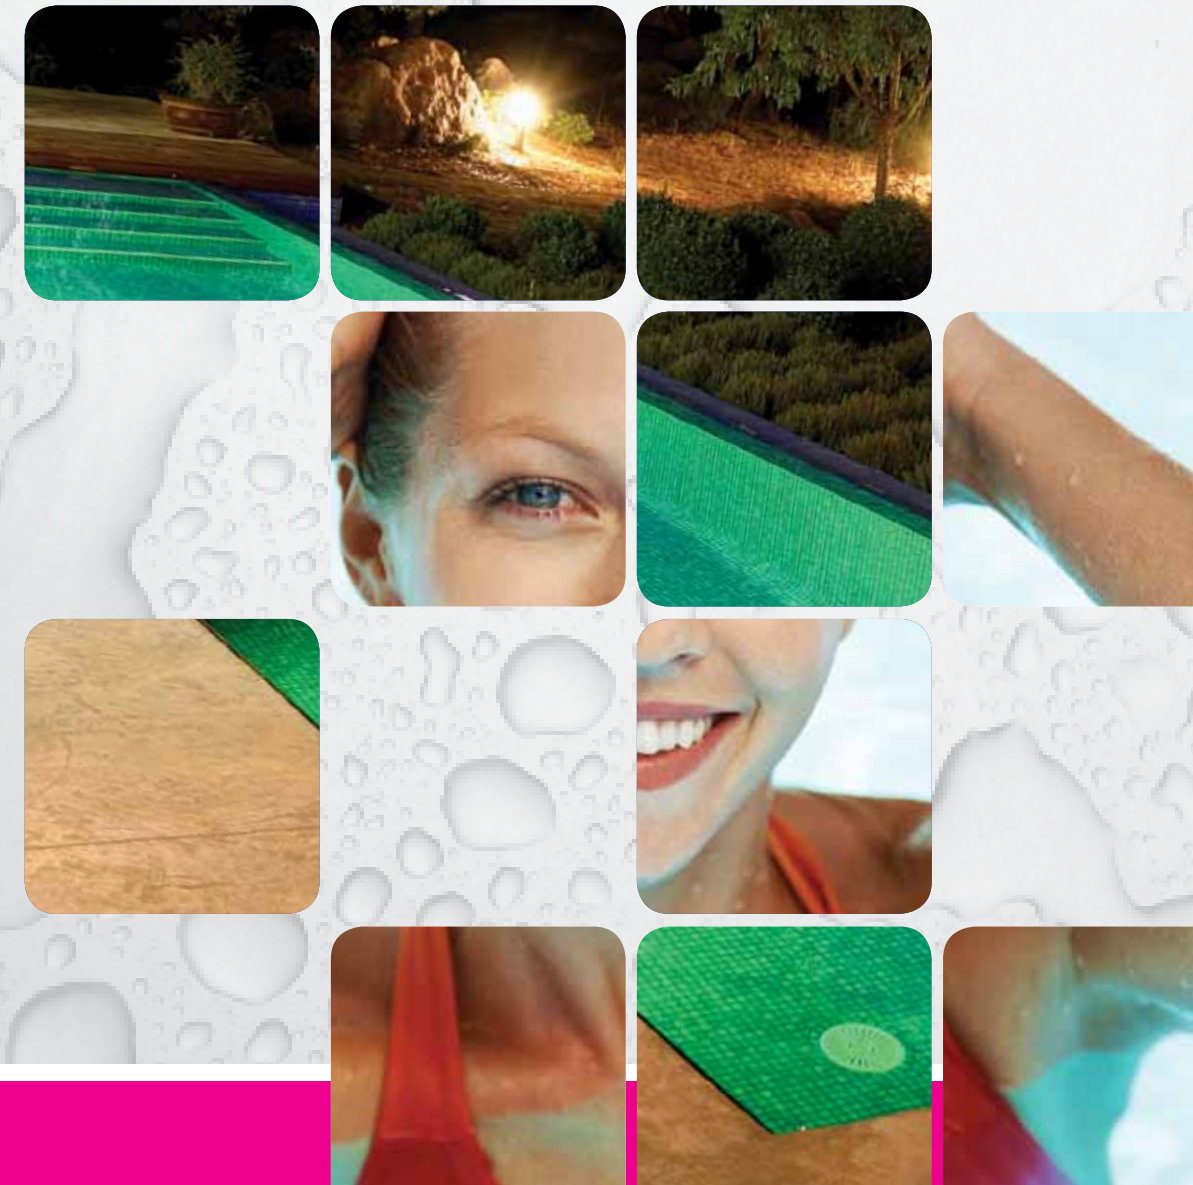

The LED light is covered by a 5 year warranty against defects and materials. See individual product instructions at AstralPool.com.au for full warranty details.
